Learner Feedback

“...easily accessible, & interesting to follow. Having educators that facilitate learning is amazing & encouraging.”

“It has been a great course. It just came on time for me as I am beginning a career as a clinical supervisor & this is not a routine course offered in my country. I have really learned a lot.”

Overall Impression

- Met identified learning needs
- Suited busy health professionals
- Created an international community of learners
- Facilitated inter-professional learning

“...brilliant to see so many different professions engaged in developing a common understanding of educational processes.”

-
- 1. Clinical Supervision: Teaching & Facilitating Learning**
 - 2. Clinical Supervision: Assessing & Providing Feedback**
 - 3. Clinical Supervision: Planning your Professional Development**
 - 4. GP Goal- setting training course (Launched this week!)**

Key Messages

- MOOCs can provide engaging faculty development without boundaries.
- Inter-professional and social learning are highly valued in an international setting.
